

We Are Like Wedding  
Planners For  
Growing Older.™

**WellSenior™ - Preparing for Tomorrow's Needs Today**

**Our WellSenior program is uniquely designed** to meet the full range of needs of aging adults planning for future care needs who want to establish a relationship with a proven Aging Life Care Management practice. Led by our skilled team of gerontologists, it is growing in popularity with those who are single, or whose family lives out of town and are seeking support they can trust. Our caring and knowledgeable Aging Life Care Managers will provide guidance and advocacy in the event of a medical crisis, a health-related change, or when advice is needed on housing and care options.

**When a new WellSenior enrolls** in our program, a care manager will:

- ❖ Arrange an initial in-home visit, billed at our regular care management rates to get a better understanding of care needs, as well as gather background information regarding medical conditions, emergency contacts, medications, POAs, and other important information.
- ❖ Coordinate quarterly check-ins by phone at no charge, unless there is a change or new needs are identified.
- ❖ Visit annually, billed at care management rates, to document updated information.

*"I really appreciate having a relationship with Debra Levy Eldercare Associates, since they have the expertise we need when my mom has a medical crisis." - A Grateful Gaughter*

**Independently owned and operated since 1988**, our dedicated team of Aging Life Care™ managers provides individualized support and expert guidance to older adults facing the challenges of aging or disability, and their families.

**Our knowledgeable team** of seasoned nurses, social workers and gerontologists supports families and professionals caring for older adults, using their expertise and understanding of the aging process and chronic illnesses to guide our clients towards practical solutions with confidence and compassion.
